## **Autocrat's report**

### **Winter's Tourney progress report for February Council:**

It's steadily approaching. Preparations are coming together and they are coming to a close. The Shire is about to produced a really great event. As far as I can see we are holding tradition with new idea and producing the future. Many people are doing great things to make this event happen and happen well. People such as William Arrowmaker, Gwyneth Gower, and Ayame, all from our Shire are showing just how valuable they are to have around. Many other people are showing similar colors and as the event approaches like how they can be of great service to the Shire. I know I will have a very long list of Lionsdalers and beyond to thank for their help and I really look forward to that for our next council meeting. I am also happy to inform you that Amanda Kendal has donated four glass water jugs, serving spoons, several medium wooden bowls and many metal and wooden trays to help with this event and future Lionsdale events. I currently have them in my position and after labeling them, and using them for Winter's Tourney. I am more than happy to pass them along to the storage unit for further use. Thanks go to Amanda Kendal for answering the Shire's need!
